

CONVENTION  
For our FUTURE:

A EUROPE

FAITHFUL to

HUMAN DIGNITY

On May 7th 2022  
Brussels 11am-1pm

## JUSTIFICATION

We are living through crucial moments for Europe and for the defense of European foundations. The latest and dramatic events in Ukraine confirm the weakness with which the adversaries and/or enemies of our civilization observe us. It is necessary to strengthen our cohesion, work to the regeneration and the amendment of the European values. The moral and spiritual "rearmament" of Europe is more necessary and urgent than ever.

On May 9th, 2021, in Strasbourg, the European institutions opened a reflection on the future of Europe. A year later, on May 9th, 2022, this process will be closed, and the conclusions will be announced during the months of June - July.

Europe has become a testing laboratory for those who want to substitute, replace, and destroy the cultural foundations of Europe by another social order, or to be 40 - 13:00: , by a disorder. They want to replace the Europe conceived by the founding fathers by some other that eliminates its roots and offers us a civilization that destroys the unborn children and eliminates the deepest traditions and foundations by attacking human dignity, family and life itself.
